

**St Marys Trophy, Race 2 - 23rd May 22.
Classic and Clubman.**

The Combatants.

Russ: Lancia Fulvia under 2lt, 1969 Camaro over 2lt.

John T: Ford Capri 2lt.

John R: Ford Cortina Mk1 1.6 twin-cam under 2lt, Ford Cortina Mk2 1.6 twin-cam under 2lt.

Dave: Riley Elf 998cc under 2lt, Ford Zodiac Mk 3 2.5lt over 2lt.

As we are still testing running and tweaking this class it did become a one-sided affair with Russ with two well prepared cars running at the front. John T's SRC Capri proved its metal; but an over the edge tumble disabled its running gear leading to some pressured rebuilding during the tea break. The basic chassis shows good track holding and John is looking to build on this with a more legal S-can power unit.

John R ran pretty much a box standard Cortina Mk 1 with plans to move to an "Angelo Amato[®]" chassis and should improve with that along with upgraded running gear. His second Car the Cortina Mk2 is a resin bodied car that also would be helped with a more racing set up. Both are under 2lt cars so the field are left wondering what he might bring for the over 2lt class.

Dave's cars are both resin, running on "Angelo Amato[®]" chassis. The Riley has been campaigned before, although has now been stripped of ballast and with just a little added ran well but needs to find a good second of lap time. The Zodiac suffered with rear tyre issues following glue failures, but with the help of team Russ these were secured and performance improved. The resin body is heavy and prone to swing the rear end out. This car too needs to find another second to close on the field.

Lots to think about before the return of Allan.

Rumours abound of the development of a new car in the Igo stable has folk talking, but we should not all jump on that bandwagon.
