2	Russ Monkman	149.519
3	John Tetley	137.7
4	Dave Sykes	116.12

All ERA cars running with Allan was in the moment and some times several moments ahead out front. Russ chased after him but was out of sorts struggling to concentrate, close but pushing too hard and a few scenic excursions. John hustled the dark Green ERA and for a few too many trips to check picnic locations looked to be close on Russ's coat tails. Daves blue R5B took up the struggle but took a solid hit on the barrier on the front left around lap 3. The green R3A had to be brought back to finish up and did well with better times but the wheel felt slippery and Dave could not trouble John much.
