Running on Holdsworth Park to avoid the low bridge for these sit up and beg and in some cases sit up and pray cars..

Darracq Russ Monkman. Renault Allan Inwood. Alfa Romeo John Tetley. Vauxhall Dave Sykes.

A new car and a new win for Russ, the Cadillac was his chosen steed however it could not keep its wheels on so the early race development of the Darracq was moved ahead and proved its metal. Allans Renault took heat one but with tight margins could not keep a overall win. John had a terrible accident in warm up, the engine mounts broke but a good supply of Gum and Brown paper was able to hold on through both heats. Dave Vauxhall had issues with steering the newly allowed ballast fowling the ackerman and locking the guide in left-handed corners leading to de-slots. Even slightly improved for heat two more attention is needed.
